National Honor Society
Tutoring Service

Tutor Request Form
2020-2021

The National Honor Society sponsors a tutoring service every year for students who are interested in receiving assistance in one or more academic subjects. If you are in need of an NHS tutor, please fill out this form and return it to Guidance. An NHS member will be selected to help you in the subject of your choice, based on his/her own performance in that subject and the free time that you and he/she have in common. The tutor will contact you via your school email. You should receive an email from your tutor within a week. If you do not hear from your tutor within that time frame, please tell your school counselor and they will contact one of the NHS advisors for assistance on your behalf.

Date: _____
